## Skills Developed in:

\* Denotes strong skill base, or usage within a year on a production/client project.

2008-9	2010	2011	2012	2013	2014	2015	2016
ActionScript	Less	Hadoop	Haskell*	Snap*	React*	React-Native	WAI*
HTML*	Sass	Pig	Clojure	Groovy	Postgres*	webpack*	Servant
CSS*	Jade	Cassandra	Common Lisp	Grails	awk/sed	fluxible*	Stack*
JavaScript*	Dojo	Brisk	Objective C	Angularjs	Docker*	react-router*	
jQuery	node.js*	Backbonejs	Java	Riak	PureScript	redux*	
PHP	MongoDB	Sencha Touch		Yokozuna		babel*	
MySQL						golang	
						PostCSS*	
						Relay	

## Books

### Snap for Beginners

[snapforbeginners.com](http://snapforbeginners.com)

Snap is a simple web development framework for unix systems, written in the Haskell programming language.

### FutureUI

[future-ui.com](http://future-ui.com)

Future UI focuses on building modern interfaces using cutting edge UI technology such as babel, React, redux, css-modules and PostCSS.

## Projects

### Leo

[superawesomelabs.github.io/leo](https://superawesomelabs.github.io/leo)

Leo is an extensible static site generator built on Relay, GraphQL, Webpack and React.

### Fate

[superawesomelabs.github.io/fate](https://superawesomelabs.github.io/fate)

Fate is a modular system for creating component libraries.

## Talks

Develop and Deploy Haskell in Docker

SFHUG - July 2015

UI@Docker

Docker SF Meetup - August 2015

## Work Experience

### UI Engineering Lead at Docker

May 2014-Jan 2016

<https://www.docker.com>

- First UI Hire; Directly responsible for technology and architecture decisions
- Architect and Design Docker Hub 2.0 (Universal, React, webpack, docker)
- Hire, Develop and Enable a Front End Team

## Director of Technology at Avant Digital Group

June 2011-2014

<http://avantdigitalgroup.com>

- Engineer API's using node.js, Clojure and Haskell.
- Engineer iOS/Android applications using HTML5 and Native technologies.
- Engineer Front End solutions using Backbone and other FE technologies.

## Freelance Web Architect

December 2008 – 2011

- Architect websites, applications and databases
- Interface with clients

## Layout Designer

August 2010 – October 2010

Lewis University, Romeoville, Illinois

- Layout content
- Design graphical components

## Graphic Designer

June 2010 – August 2010

Lewis University, Romeoville, Illinois

- Design print, Flash, and After Effects materials

# Professional Development

## Conferences Attended

- Flashbelt 2010
- UX Week 2011
- MongoSV 2012
- Big Android BBQ 2013
- BoxWorks 2013
- Ricon West 2013
- Erlang Factory 2014
- DockerCon SF 2015
- ReactJS Conf 2015
- html5 dev conf 2015
- Clarity 2016 (styleguides)

# Education

## Probabilistic Graphical Models

2012

## Introduction to Artificial Intelligence

2011

## Introduction to Databases

2011

## Machine Learning

2011

Stanford Engineering

## BA - Web Design and Development

February 2011-January 2012

Full Sail University, Orlando, Florida

## BA - Computer Graphic Design

August 2008-December 2010

Lewis University, Romeoville, Illinois

## Extracurricular Activities

- Lewis University NCAA Division I Men's Volleyball Team (scholarshipped) 2008 – 2010
- Harmonic Uprising Acapella founding member 2008 – 2010
- Harmonic Uprising Graphic Designer 2008 – 2010
